May 05, 2007

I, Gene Williams, request once again to have my water turned back on. I have been a tenant at 2630 N. 33rd Street prior to March 01, 2007 and there after, with the exception of me going away.. The water have been turned off on me, and it have not been turned back on since March of 2007. I was informed by one of my neighbors that someone from the water department have been back at the property while I was out, and went inside of the ground like they were turning off the water., even though the water is already off. On or about May 03, 2007 was the most recent time the neighbors witnessed the water department returning to my residence going into the ground with a long pole. I was informed by the owner that there are allegations made by the water department (noted on the computer) that the water was turned back on in April, 2007. I can assure you that is not true. I have been buying water to wash etc. and the owner is not here, due to the fact that she have been assaulted , and the first floor was broken into, and because of those reasons, she stated that she does not feel safe here. When she come ir is very brief and for business purposes or to pick up her personal or business belongings. I am the only one who is physically residing her currently. And, I have proof that I have to go out my way to have water delivered here, because I am a diabetic and I need to have access to water, especially to take my medication and for my hygiene.

I have known my landlord for over seven years (as my landlord only) and I can verify that nether she or I have the ability to turn the water on or off. And, her ex-strange husband is not here in the United States, as far as we know. On or about April 19, 2007 I have witnessed the landlord attempt to resolve alleged billing errors, as she request a billing history for the property, from their time of purchase. I have witnessed the fact that the supervisor(s), Ms. Norris and Ms. Harris were refusing to provided the owner information that the owner stated she requested for years, but she have been refused her request. I waited with her, to see Ms. Norris supervisor, Ms. Scales, but she did not come to meet the owner as Ms. Norris assured the owner.

As a tenant, I am not responsible for any back bills, but I am willing to have the water bill place in my name, until the owner can resolve the alleged missing revenues and the alleged inflating bills etc... I have provided the water department with proof of my residence at 2630 N. 33rd Street, and I have explained to them that the address on my I. D. was my mother's address. But, I did not reside there. And, when I came back it was time for me to renew my I.D. and I just left it with my mother's address, not knowing that I would have this problem. I am respectfully requesting to have my water reinstated and if necessary to do so, I am willing to have the account placed in my name. The owner have already authorized for me to do so.

Thank You,

Gene Williams
